Recreational Use of Your Stream

RECEIVED
JUL 30 2008
WATER PROTECTION PROGRAM

Name: John Grieme
Address: 17926 County Road 372, Saint Joseph, MO. 64505
Phone Number: (816) 233-0080 E-mail address: johngrieme@aol.com
Stream name: Dillon Creek WBID (if known): _____

What county is the stream in? Andrew

Have you or your family used this stream for recreation at any time since November 28, 1975?
Yes X No _____

How have you and your family used the stream? Please circle all that apply:

Swimming Playing Fishing Wading Water skiing Snorkeling Skin diving
Tubing Kayaking Canoeing Trapping Other: Seining Bait for Fishing

Has anyone in your family, including children, ever used the stream in a way where they might have accidentally ingested water? Yes X No _____ If so, how? Falling Down While Wading and Seining Fish Bait

What stretches of the stream have your family used? Describe locations as accurately as you can by means of distance from landmarks, bridges, streets, highways, or property lines (example: 150 yards downstream from Hwy EE bridge). Feel free to draw (on back) or include a map.

Marked on Map - Area South of 29 Interstate and 1 1/2 miles West of State Road DD

Do you know of others using this stream for recreation at any time since November 28, 1975?
Yes X No _____

How have others, to your knowledge, used the stream? Please circle all that apply:

Swimming Playing Fishing Wading Water skiing Snorkeling Skin diving
Tubing Kayaking Canoeing Trapping Other: Seining Fish Bait

Do you know of others ever using the stream in a way where they might have accidentally ingested water? Yes X No _____ If so, how? Same as Above

What stretches of the stream did they use? Describe locations as accurately as you can by means of distance from landmarks, bridges, streets, highways, or property lines (example: 150 yards downstream from Hwy EE bridge). Feel free to draw (on back) or include a map.

All around the local areas, This Creek is used For Cattle Watering, Wading and various types of Recreation.

Comment on Back ↗

Growing up in this community since birth, my family and myself have enjoyed many hours of use in this creek.

From the time that I was young and thru the time that I was raising my children, (the last 10 years) this small stream has provided activities such as swimming, wading, Teachings of Wildlife and fish habitat for several different families. It has been an asset that we have enjoyed and expected to last forever for future generations to use and learn from.

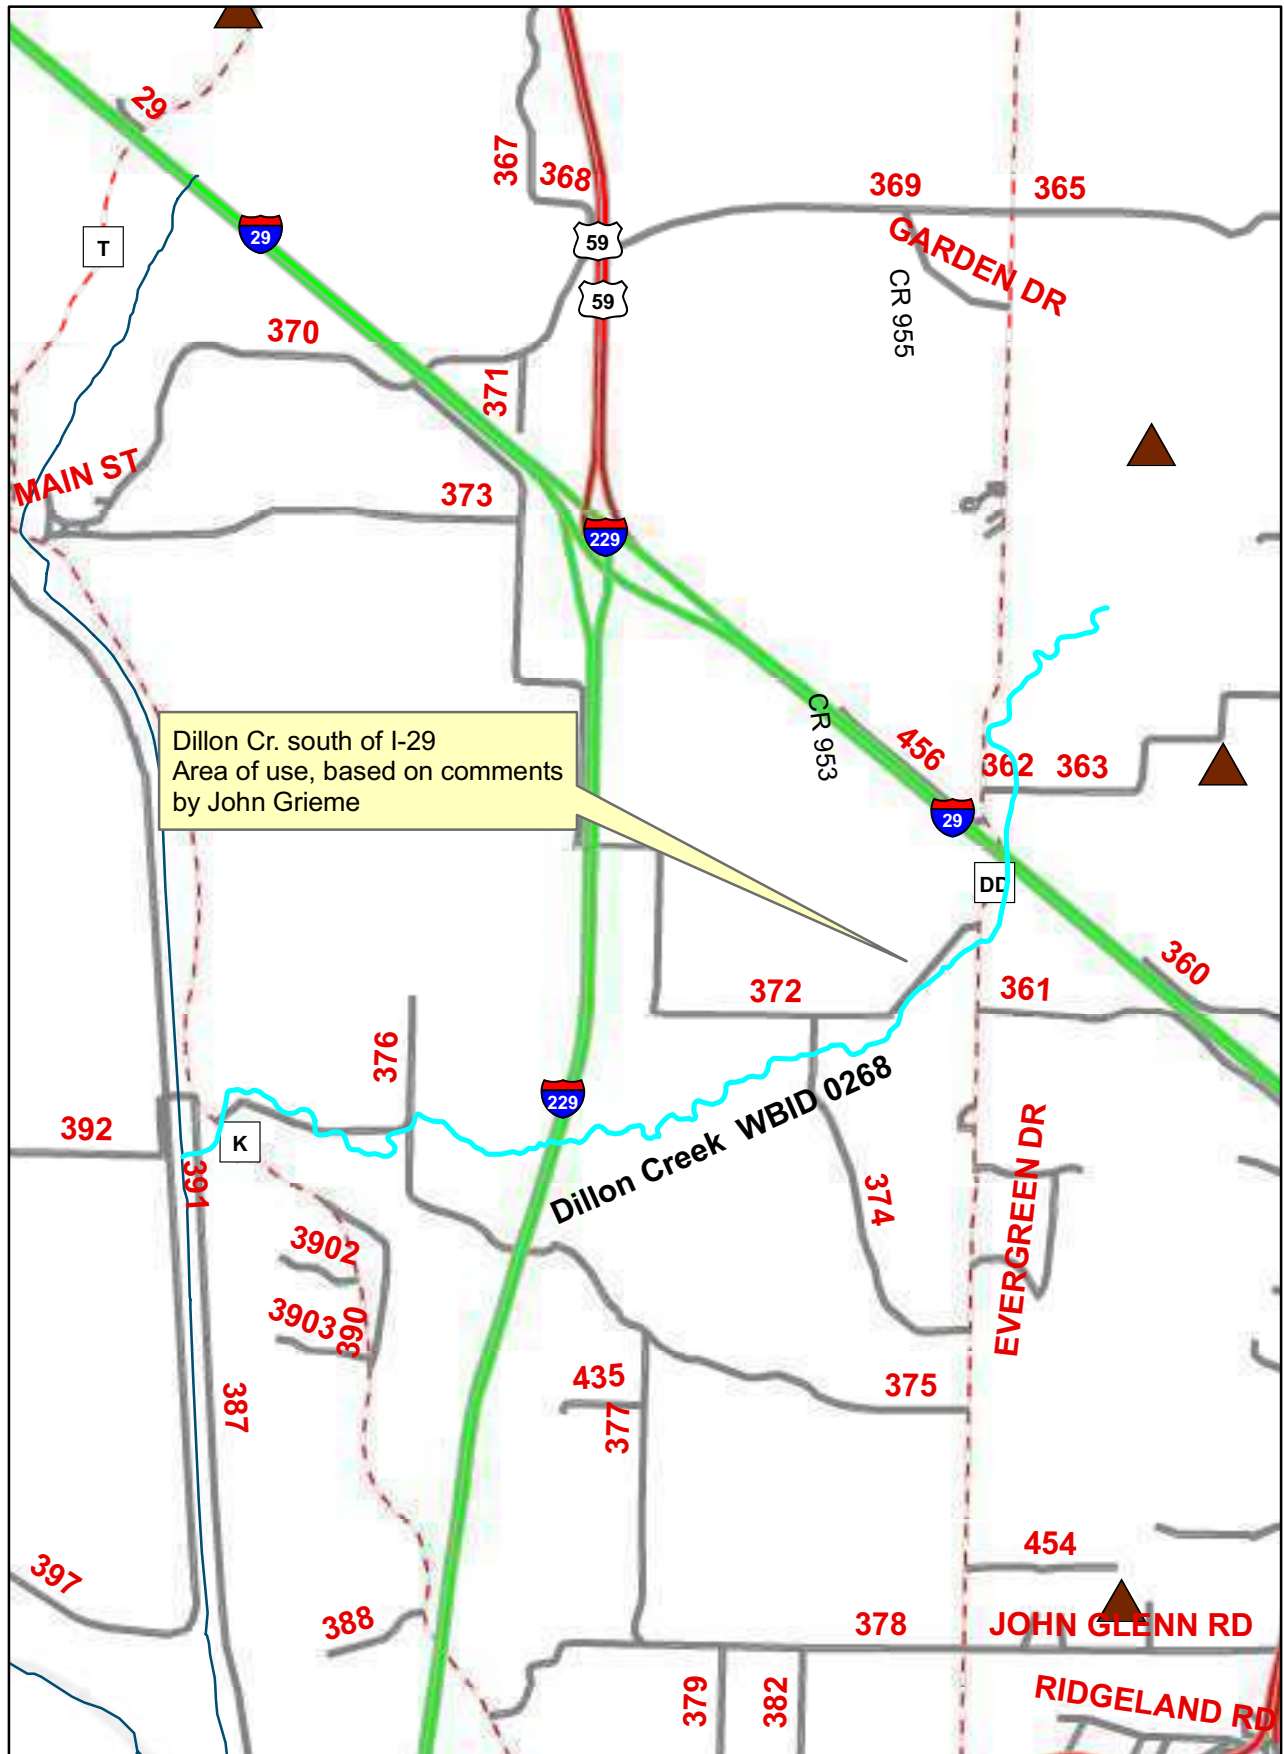

In a time that the world is changing so much that we are selling out the things that we take for granted and enjoyed in our youth, we as responsible individuals cannot let the municipalities or corporations ruin it for the future.

Please keep this stream safe for everyone.

John Greene

2007 UAA Public Comments

Date: 8/21/08

Time: 10:25 AM

Caller: Bill Whipps

Contacted: Darlene Grieme

Phone number: (816) 233-0080

Water Body Name: Dillon Creek

WBID: 0268 UAA: 0593

County: Andrew

Reason for contact:

To clarify comments submitted reagrding recreational use of Dillon Cr. in Andrew County.

Comments:

Mr. Grieme had not indicated on front of form that he or his family had used stream for swimming since November 28, 1975, but on the back he wrote a note that indicated that he has used the stream for swimming. I sent an email on August 11, 2008 requesting clarification, but he never responded. I followed up with a phone call today, and spoke with his wife Darlene Grieme.

She said that his comment on the back probably referreed to swimming when he was a kid prior to November 28, 1975. She said that the stream barely has enough water for wading, and that her family has used the stream for playing, wading, siening bait, but not for swimming.

Recreational Stream use form

Play at the creek daily through the summer. The creek passes through areas of small acreages (5-50 acres) with new homes on them. This area has had many new homes built in the last 5-7 years. The population notices, uses, and enjoys Dillon Creek. We didn't realize this was happening or we would have organized earlier. I have 3 young sons ages 5, 7, and 11. I am a teacher my wife is in radiology. Our sons play on (and many times in) the creek daily. They all 3 want to be soldiers when they grow up. They think the United States is the greatest. I have not told them about the stream. I am embarrassed. I know they will probably hear from the other kids as their parents are now talking about Dillon Creek. The prospect of having sewage put into a stream that area children play in has us all in a state of sad disbelief.

Subject: **DILLON CREEK**

Dear Mr. Hoke,

I was recently informed that **Dillon Creek** was being considered an "exempt stream", allowing raw sewage to be dumped into it. This scares and saddens me on several levels.

My son, his three boys and I have explored the creek enjoying the scenery and looking for fossils as we waded a half mile or more. What a wonderful outing to watch those three little boys catch minnows and frogs and splash in the cool water. If this creek is allowed to be polluted we can never again use **Dillon Creek** as an outdoor experience. Even our black lab, Molly frolics in the cool, clear water and then comes into the house at night. She would bring the contaminants in with her.

For several years three generations of our family have been using **Dillon Creek** for fishing, canoeing, wading, swimming, and fossil hunting as well as enjoying the wild life that is always near by. Surely, there must be a better solution to the sewage problem than to dump it in **Dillon Creek**. I want my government to be responsible and do the right thing so another generation can enjoy the **Dillon Creek** and all its treasures.

Sincerely,

Richard Hoecker
